Ellen,

They're moving dirt hard and fast today.

As I learn more details of what's been going on in this town I'm realizing I want to help you gain more authority over enforcement.

I believe its important to issue every citation, appearance ticket, order to remedy, or stop work order as is required according to code and law.

With this said I ask for every such violation or whatever its called be documented even if the court throws it out. I'll then be after the court and substantiate their pattern of not properly administrating items received. So, in case of the Lodge especially, if you can legitimately write it please do so, and we'll deal with the court.

Marcel
